### Protocol Earth Electrode Measurement

**Project:**

**Name of project:**

**Facility:**

**Date:**

**Name:**

| Part of facility | Earth electrode 1<br>Ohm | Earth electrode 2<br>Ohm | Earth electrode 3<br>Ohm | Earth electrode 4<br>Ohm | Result.<br>resistance<br>Ohm | Remark | Performed<br>by<br>Sign |
|------------------|--------------------------|--------------------------|--------------------------|--------------------------|------------------------------|--------|-------------------------|
|                  |                          |                          |                          |                          |                              |        |                         |
|                  |                          |                          |                          |                          |                              |        |                         |
|                  |                          |                          |                          |                          |                              |        |                         |
|                  |                          |                          |                          |                          |                              |        |                         |
|                  |                          |                          |                          |                          |                              |        |                         |
